📍 Pune, India

## Profile

---

I bring strong programming and management skills, demonstrated through successful project execution, technical proficiency, and effective collaboration within cross-functional teams. Eager to contribute a versatile skill set and commitment to excellence in a dynamic professional environment.

## Education

---

Ichalkaranji, India

**BE ENTC**

*Sharad Institute of Technology College of Engineering Yadav*

Throughout the course, I acquired a robust foundation in electronic systems design, programming and signal processing. I honed my analytical and problem-solving skills through hands-on projects, including the design and implementation of communication systems. Strong communication skills were fostered through group projects, events, presentations, and collaborative assignments, demonstrating my ability to work effectively within interdisciplinary team.

Jaysingpur, India

**HSC**

*Shivaji Univercity*

## Skills

---

c | C++ | Java | HTML & CSS | Servlet & JSP | MySQL | Data Management

Hibernate | Microsoft Office | Time Management | Continuous Learning

Leadership Skills

## Languages

---

• Marathi

• English

• Hindi

## Projects

---

### Insurance Management System

The Insurance Management System represents a sophisticated web-based application designed for seamless insurance operations. Leveraging web servlets and JDBC for robust client-side technology, I played a pivotal role in crafting a comprehensive solution. My involvement spanned both the frontend and backend, where I focused on creating an intuitive and visually appealing web interface while ensuring a seamless integration with the database.

## Smart security locking system

I spearheaded the development of an innovative Smart Security Locking System, engineered on cutting-edge Android technology, tailored specifically for the security needs of esteemed entities such as banks and business organizations. As the project lead, my responsibilities encompassed the entire project lifecycle, from conceptualization to implementation.

## Certificates

---

- Full stack java development
- Working with Computers and Devices
- Working and Collaborating online
- C,C++
- Business Training Under CMEGP Scheme

## Interests

---

- Frontend development
- Database management

## Hobbies

---

- Yoga
- Trekking
